HESTA

Here for you

We're a specialist industry super fund dedicated to people who provide some of the best health and community services in the world.

With more than 850,000 members and \$46 billion invested globally on their behalf, we've learned a thing or two about looking after our members.

We speak up for others. We stand alongside our partners and members, advocating for a super system that better caters for people working in your sector. And, more broadly, women and First Australians.

As an industry super fund we work for you – not shareholders. We keep our fees down, costs low, and provide commission-free advice. It's all part of the service. That way more money stays in our members' super accounts working for their future.

Speaking of the future, we invest our members' super thoughtfully, and intelligently. We take care of our members' money as if it were our own, aiming to maximise long-term financial return while supporting a cleaner, greener future.

We're not just smart investors. We're passionate about sharing our expertise through information and advice. And it's our job to do everything we can to help, so our members can live their very own version of happy ever after.

about CEDA's national and research program

Research – Economic and Political Overview (EPO) 2019

February 2019

CEDA's EPO is Australia's premier publication and series of briefings on the Australian economy and politics for the year ahead. Running for more than 30 years, the 2019 EPO will focus on its purpose of providing political and economic business intelligence. The report will focus more intently on providing a review of economics and politics during 2018 as well as looking at the year ahead.

The report will provide an analysis of the economic and political landscape, both from a domestic viewpoint and an international viewpoint. The report will also include an examination of public policy formation in Australia over the past 12 months and likely policy developments in 2019; and an analysis of key international policy trends, a review of the year ahead, and a series of essays outlining policy developments and their likely key turning points in 2019 from policy organisations in Europe, the Americas and Asia.

National conference – State of the Nation 2018

August 2019, Canberra

Described in the media as "Australia's premier policymaker conference", State of the Nation is the country's leading public policy discussion forum, bringing together decision makers and leaders from government, business and industry for an intensive, day-and-a-half of presentations and discussions on Australia's future prosperity.

about CEDA

CEDA is a respected independent national organisation with an engaged cross-sector membership. More than 780 of Australia's leading businesses, organisations and academic institutions from around the country are members of CEDA. For more than 50 years, CEDA has delivered informed discourse and rigorous research to influence good public policy for Australia's economic and social development.

Membership

Organisations join CEDA because CEDA delivers exposure to high level thought leadership, timely briefings on issues of economic importance, access to networking and brand reach through sponsorship and hosting opportunities. In addition to high profile public events, CEDA also delivers regular member only events for employees of member organisations and exclusive Trustee only boardroom briefings for senior executives from member organisations. These provide a unique opportunity for peer-to-peer knowledge exchange and for speakers and attendees to talk candidly on issues.

Research and policy

CEDA's only agenda is to pursue good public policy to progress Australia's economic and social development. Since 1960 CEDA has produced more than 3000 publications, research reports and articles highlighting emerging issues and directions in a diverse range of policy areas. Research in 2018 will focus on inequality; community attitudes to economic growth and development; and a major review of the purpose of economic growth and development in Australia.
